

HELIX R SERIES

In the most minimalist way imaginable, the Helix Wine Rack hangs wine bottles off walls or floating on posts to create remarkable custom wine storage systems, starting at just (1) bottle.

** design and utility patents pending internationally **

DRIVEN BY NATURE

The helical design mimics one of nature's strongest structures, creating an ultra-lightweight and incredibly durable bottle storage that starts at just 3-1/4" (8.5cm) in total depth making it one of the world's slimmest label-forward wall-mounted wine racks.

SCALABLE

Align racks on top of each other or line up to the side to reach any custom commercial or residential requirement.

Offered in choice of (2) heights and three (3) bottle configurations.

FINISHES

Matte Black • Golden Bronze • Cool Gray

FLOATING

The Helix Post takes this remarkable wine rack off the wall to press against glass, highlight tony backsplashes, and create unique room dividers. **Available in:** 5', 10', 12', and 15' heights with 6 unique mounting upgrades.

STYLISH ADD ONS

Design with any other innovative VintageView collection for superior custom wine cellar results.

BEHIND THE GLASS

- R Series / Helix Wine Rack
- Matte Black Finish
 - Dual Bottle Configuration
 - 72 bottles
