

SHELVES

4 ACMSCV2
8 bottles capacity*

Main du sommelier
Anti-vibration technology

* NOTE : Maximum capacity of 6 bottles at the bottom of the wine cellar

EUROCAVE'S ADVANTAGES

Temperature : Above-average insulation ensures that your wine cellar maintains a constant temperature, allowing your wine to reach its full potential.

Hygrometry : Its 6 cm insulation allows the compressor to start up less often, and therefore to dry out your cellar less.

Absence of vibration : Like a jewel box, the "Main Du Sommelier" supports hug and isolate each bottle from any disturbance (anti-vibration technology)...

Air circulation : Constant air renewal prevents mold in your cellar. EuroCave cellars benefit from a 100% active window well ventilation system, making them very similar to natural cellar ventilation.

Darkness : Ultraviolet (UV) rays in natural and artificial light are harmful to wine. That's why EuroCave offers you solid or glass doors with double anti-UV thermos to protect your bottles.

INCLUDED ACCESSORIES

100% active
charcoal filter

Moisture case with
clay balls

Condensation
drip tray

Keychain

COMPACT

MODEL : V059V3FG

SIZE & CAPACITY

| | |
